

## Versatile container semitrailer Grünwald

### Advantages

- Designed together with German technicians.
- Reinforced frame.
- Original European component parts.
- Paint coating thickness of 200 micron for severe climatic conditions.
- Welding is fulfilled in the argon atmosphere that makes the welded joint to be resistant to low temperatures.

### Technical features

Axles	3x9000 kg
Fifth wheel load	11000 kg
Gross weight	38000 kg
Tare weight	5650 kg
Carrying capacity	32350 kg
Fifth wheel height	1100 mm
Types of containers to be carried	20', 30', 40', 40'HQ, 45'
Overall length	12573 mm
Overall width	2500 mm

### Options

- Installation of the front lift axle.
- Installation of axles with disc brakes.
- Design according to the customer's request.
- SMARTBOARD information unit.
- Additional strengthening of the structure.

### Warranty

- 12 months for the product.
- 36 months for axles.
- 5 years for axles if EBS BPW is installed.

### Specifications

**Chassis:** Reinforced frame for rough road conditions. The side members made of Swedish steel OVAKO are welded from both sides and keep elasticity at low temperatures. JOST/Haakon landing gear. 12 fittings of European manufacturer. Six container beams for transportation of the containers without any recess in the bottom. Load platform at the rear of the semitrailer.

**Types of containers:** Suitable for transportation of all container types 1x20', 2x20', 1x30', 1x40', 1x40'HQ, 1x45'. The reinforced frame ensures carrying 2x20' containers.

**Axles:** BPW Heavy Duty axles with drum brakes. Pneumatic suspension. Lifter for platform lifting/lowering.

**Break system:** EBS/ABS of Wabco/BPW production.

**Tires and wheels:** 7 wheels (including spare one). Galvanized steel wheel disks 22,5x11,75. Tires 385/65R22,5 of brand at the semitrailer manufacturer's discretion.

**Electrical system:** Two-wire system, 24 V operating voltage, explosion-proof design, rear five-chamber lights with integrated trigonal reflector.

**Optional equipment:** Six complete mudguards. Side protector made of aluminum shape. Two wheel chocks with holders. Holder for two spare wheels. Tool box with a lock.
